Dear

STAT

Your letter of December 27, 1982, to our Mr. McMahon has been referred to me for direct response. You have indicated that you are looking for new electronic security products to add to your product line and have asked our assistance in locating new products, innovative suppliers, and people knowledgeable in the electronics industry.

While we appreciate the problem you are having in identifying sources, we must advise that it is our policy not to provide information on sources of supplies, people, or other information on any of our United States industries. The information you seek certainly is available in the open media and, with little effort, could be collected from that source.

Very truly yours,

STAT
